

Interested in Green Chemistry?

Would you like to make an impact on the next generation of scientists?

Become an ambassador of Green Chemistry and help inspire young people in your community through *Beyond Benign's Outreach Fellow Program*

Beyond Benign is proud to announce the start of the **2008-2009 Outreach Fellowship** program for college undergraduate and graduate students. As an Outreach Fellow, you will learn about green chemistry and receive educational outreach training from Beyond Benign staff. You will travel to local K-12 schools or community organizations to talk about green chemistry and perform hands-on activities with the students. You can be part of inspiring the next generation of scientists to pursue careers in science.

As an Outreach Fellow, you can:

FIRST MEETING:
WED, OCT 29th, 2008
Beyond Benign Headquarters
66 Cummings Park, Woburn, MA
Contact Raks for more information

- Be eligible to win a sponsorship to a Green Chemistry Conference of your choice to learn more about the growing field and to network with like-minded green chemists
- Help to create new educational activities for use in K-12 and community outreach
- Participate in Beyond Benign's Outreach Fellow Banquet where you can network with other Fellows and meet leaders in the field of Green Chemistry
- Build your green chemistry network and become an ambassador of Green Chemistry to your local communities
- Inspire the next generation of students to pursue careers in science

Interested students should contact Raks Derival at raks@beyondbenign.org

Beyond Benign is a non-profit organization in Massachusetts dedicated to Green Chemistry education for a sustainable future.
