Beyond Benign 2020 Online Course for High School Science Educators

Introduction to Green Chemistry

June 8–August 3, 2020

Looking to create a safer more engaging learning environment for your students? This course will equip you to integrate green chemistry principles and practices into your classroom by teaching through real-world sustainable innovations. Develop safer labs and lessons aligned to your local standards in an asynchronous interactive online environment. 48 credit hour course load consists primarily of forum discussions based on selected readings along with lesson plan development for remote learning or classroom implementation.

INSTRUCTOR:
Tanya Elmer, Beyond Benign Lead Teacher. Tanya earned her Master’s in Educational Leadership in 2005 and has been teaching chemistry for 20 years. Tanya serves as an adjunct chemistry instructor at Northwest Nazarene University and is a former Idaho Science Teacher of the year for her region. She has been practicing green chemistry with her students since 2014.

Participation and Fee:
$450: Payable to Beyond Benign at registration
$135 (optional): Payable to Colorado School of Mines for 3 graduate credits

Eligible OR teachers will receive FULL registration thanks to sponsorship from the Oregon Department of Environmental Quality and their EPA Pollution Prevention Grant and American Chemical Society Portland local section.

Space is limited.
Apply by June 1, 2020:
